

# 68K

A DIFFERENT BREED® OF FALCO™ CANOLA  
THE NEXT STEP IN HYBRID GENETICS

**Consistent performing hybrid** that withstands turbulence in a variety of conditions

**Performs well** across geographies

#### Yield Data

- Falco™ vs. Nexera™ = +2 bu/ac<sup>1,2</sup>
- Falco™ 68K vs. Invigor® L233P = -3 bu/ac<sup>3</sup>

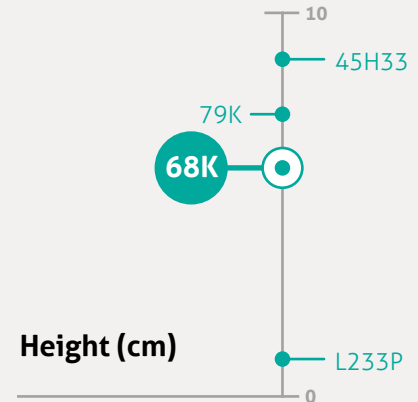

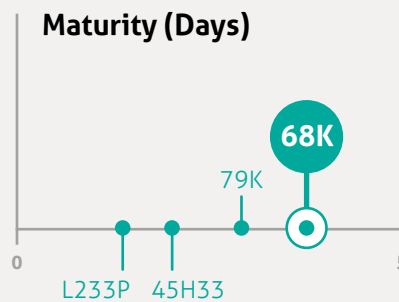

<sup>1</sup> Falco™ is 68K, Nexera™ is 1026 RR and 2026 CL.

<sup>2</sup> Yield information from 2019 Falco Take Flight results based on grower reported yield as of Nov. 22, 2019, (n=4).

<sup>3</sup> Yield information from 2019 Falco Take Flight results based on grower reported yield as of Nov. 22, 2019, (n=20).

**Herbicide Tolerance Trait**

Based on WCC/RRC registration trials where 45H33 and L233P are the check hybrids.

## FALCO™ STEWARDSHIP INCENTIVE

### MAXIMIZE YOUR YIELD AND SAVE

Purchase Falco™ canola seed, Draft® herbicide and Edge® MicroActiv® and receive \$5 per acre\* back.

\*\$5 per acre is based on standard rates used in calculation. Savings per acre will vary depending on rate of Edge® MicroActiv® used.

**TALK TO YOUR FALCO™ AREA BUSINESS MANAGER  
OR VISIT FALCOSEED.COM/CA/STEWARDSHIP  
AND FIND OUT HOW MUCH YOU CAN SAVE.**
